

Quality Policy

Melbourne Mailing provides comprehensive services in Web Development, analysis & correction of client data, laser printing, print management, folding, insertion, plastic wrapping, mailing and customer order fulfillment.

Meeting customer commercial terms and technical specifications are important aspects upon which our quality management system has been developed and implemented.

Our aim is to ensure customer satisfaction through the highest level of quality and reliability at the lowest practicable cost. We will always endeavor to listen, learn, foresee and comply with all legal & customer requirements.

As we firmly believe that quality is the responsibility of all personnel, we will continue to foster a working environment of trust, respect, participation, recognition and continual improvement through education and training.

Our suppliers are recognised as an integral part of our business. They are selected on their ability to provide goods and services that satisfy our specific requirements and complement our quality management system objectives.

We will continue to comply and improve our quality management system based on ISO 9001:

This Quality Policy Statement is fully supported by management personal and employees, it is communicated and made available to all interested parties.

Felice Armato
Chief Executive Officer
